The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-33 are seen as cancelled.

Claims 34-41, 43, 45-62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dodge et al 5708073 and GB 1,288583 in view of Van Von's et al 5801194.

The rejection of record is maintained, Applicant does not claim any specific duration, pesticide and pellet polymer, thus, the prior art cited provides the artisan desiring to provide coatings/ barriers, with incorporated pesticides with sufficient duration of effectiveness to constitute the instantly claimed sustained release coatings. The argued failures of the prior art are not so seen, as the references show multitudes of coating/ pesticide/ microcapsule or pellet polymer are within the skill of the artisan to provide.
